## **iLevel Now Offering Kleer™ Trim and Sheet Goods in the Northeast**

**Federal Way, Wash., November 29, 2010** – Expanding its distribution of third-party products, iLevel by Weyerhaeuser is now offering Kleer™ PVC trim and sheet goods in the Northeast U.S. iLevel will distribute the specialty exterior finishing goods through its service centers in Baltimore, Maryland, and Easton, Pennsylvania. [www.iLevel.com](http://www.iLevel.com)

Kleer products can be used on fascias, rakes, soffits, frieze or corners. They can be milled to create pilasters, gingerbread and custom architectural details for a complete exterior millwork package.

In addition to offering its own engineered wood products and specialty lumber, iLevel supports lumber and building material dealers by providing ready access to a range of other products, including siding and trim, insulation and housewrap, concrete forming and reinforcing steel products, and other related materials.
